2. VISION

Lead the way towards eradicating famine in Tanzania and throughout the World by improving the productivity of farmland and the nutritional value of food produced while preserving and enhancing the environment

3. MISSION STATEMENT

Attain all year round sustainable production and supply ability through enhancing small-scale farmers towards the best use of land and provision to both the consumers and small-scale farmers a reliable market of high-quality farm products.

4. CORE VALUES

RELATIONSHIPS

Agriculture is a people business. The company strives to connect small farmers in the industry to share knowledge, resources and grow together. Therefore we encourage partnership, volunteerism, and mentorship among the stakeholders along the value chain of our products.

SERVICE

The company focuses on to serve Individuals in the general community. The effort is through the creation of a reliable market with high-quality farm products that create satisfaction to both the consumers and small-scale farmers.

TRAINING & DEVELOPMENT

Agriculture is constantly evolving, and we want to meet the challenges of a changing world by promoting Continual education and training to build on our talents and develop new skills on the best use of available resources among the members of company's value chain.

INDUSTRY ADVOCACY

The best way to help people understand the role of women in agriculture and the life sciences is to share information. We equip our members to be advocates of our industry and ensure members (Majority women) receive sustainable Income from the best farming practice, which encourages more food production

SHARED PASSION

We have all chosen our respective careers because we are excited and energized to be involved in agriculture and make a difference. This shared passion runs as a common thread that unites us with all other farmers in the industry.

ENVIRONMENT

The ability to feed the future is vested on the proper conservation of the land and environment we are living in today. Biodiversity Conservation measures are part of our agriculture practices.
